- Google Cloud Career Practitioners Program (GCCP)

PROJECTS

ENGLISH TO SPANISH TRANSLATOR

Jun 2024

Designed and developed a machine learning model to translate text from English to Spanish using state-of-the-art **Transformer**. The Transformer model was implemented using python tailored to translate a sentence character-by-character.

CARBON PRINTS April 2024

Designed and developed a carbon footprint tracking website for individuals, using **MERN** stack built during a hackathon conducted by IEEE IGDTUW. It was among the top 24 projects.

RESEARCH PAPER Feb 2024

A Secure Searchable Encryption Scheme Over the Cloud

Our work proposes a secure searchable encryption scheme over the cloud, where the data owners securely outsource the data over the cloud. Conference paper has been published in Scopus indexed conference ICICC- 2024.

EXPERIENCE

SAG - DRDO Jun 2024 - Present

Research Intern

Working with scientists at DRDO to develop and optimise ML models for cryptographic applications.

IEEE IGDTUW

Junior Executive Feb 2023 – Oct 2023

Assisted in conducting and promoting events through social media and on-campus channels to maximise participation enhancing learning experience for fellow students.

DESH KE MENTOR Nov 2022 - April 2023

Active participant in the Desh Ke Mentor program, conducting impactful one-on-one mentoring sessions for school students and contributing to skill development.

FRESOURCES

Content Team Nov 2022 - Feb 2023

Contributed to growth of fresources.tech platform by providing academic resources resulting in increased traffic and engagement of the website.
